NEW!!

Flame Retardant Fabrics

In August, 2012 we will be adding Flame Retardant Fabrics for the U.S. and Latin American Markets. Our fabrics are amongst the best in the world and carry all U.S. and international certifications. The fabrics will have applications in the manufacturing of furniture, mattresses, curtains, automotive fabrics, etc.

Advanced tapes for the wire & cable sector to be offered in the U.S., this August

Specialty water-blocking, non-conductive and semi-conductive tapes will be a large part of our product offering, as well as non-woven 100% polyester binding tapes which offer substantially higher tensile strength than tissue tape; it runs more efficiently and provides excellent roundness. Perfect for binding miniature cables!
